**What are Cookies?**
Stores information about websites you visit, such as site preferences or login status. This includes information and site preferences stored by plugins such as Adobe Flash. Cookies can also be used by third parties to track you across sites.

**What is the Cache?**
Stores temporary files, such as web pages and other online media that downloaded from the Internet to speed up loading of pages and sites you’ve already seen.

**Instructions to clear cookies and cache in Windows Internet Explorer (IE):**
1. Open IE, Go to Tools, select Internet options
2. Under Browsing History, select Delete button
3. In the next pop-up window, Ensure Cookies check box is checked and click on Delete
